

Conquest - Real-Time Space Battle (8.5)

Compete against other players in this real-time space battle game. Set up as a Synchronet BBS door! - Official support sites: [Official Github Repo](#) - [Official Forum](#)

The screenshot shows a terminal window titled 'root@amigacity: ~/conquest_bbs'. The window displays the Synchronet for Linux v3.17 interface with the date 'Mon Sep 03 2018 02:40 am'. A configuration window for 'Amiga City Conquest' is open, showing various settings. The 'Command Line' field is highlighted with a mouse cursor.
